A COLONY IN A NATION EBOOKS 2019

Author: Chris Hayes

Release Date: Expected @@expectedReleaseDate@@

Emmy Award-winning news anchor and New York Times best-selling author Chris Hayes argues that there are really two Americas: a Colony and a Nation. America likes to tell itself that it inhabits a post-racial world, but nearly every empirical measure - wealth, unemployment, incarceration, school segregation - reveals that racial inequality hasn't improved since 1968. With the clarity and originality that distinguished his prescient bestseller, *Twilight of the Elites* ("a stunning polemic," said Ta-Nehisi Coates), award-winning journalist Chris Hayes offers a powerful new framework in which to understand our current crisis. Hayes contends our country has fractured in two: the Colony and the Nation. In the Nation, we venerate the law. In the Colony, we obsess over order; fear trumps civil rights; and aggressive policing resembles occupation. How and why did Americans build a system where conditions in Ferguson and West Baltimore mirror those that sparked the American Revolution? Blending wide-ranging historical research with political, social, and economic analysis, *A Colony in a Nation* explains how a Nation founded on justice constructed the Colony - and how it threatens our democracy.
