## THE NEXT 100 YEARS A FORECAST FOR THE 21ST CENTURY EBOOKS 2019

Author: George Friedman

Release Date: Expected @@expectedReleaseDate@@

A fascinating, eye-opening, and often shocking look at what lies ahead for the United States—and the world—from one of our most incisive futurists. George Friedman has become a leading expert in geopolitical forecasting, sought after for his unmatched grasp of both historical and contemporary trends. In *The Next 100 Years*, Friedman turns his eye to the future. Drawing on a profound understanding of geopolitical patterns dating back to the Roman Empire, he shows that we are now, for the first time in half a millennium, experiencing the dawn of a new historical cycle. Friedman predicts that the US-Jihadist war will conclude, to be replaced by a second confrontation with Russia; China will undergo a major internal crisis, and Mexico will emerge as an important world power; there will be at least one global war, but armies will be smaller and wars less deadly; and technology will focus on space, both for military uses and for energy. This book is a compelling, eye-opening portrait of the future.

Great ebook you should read is *The Next 100 Years A Forecast For The 21st Century Ebooks 2019*. You can free download it to your laptop in easy steps. KITTENPETCARE.COM in easy step and you can FREE Download it now.
